

I am writing today in support of everything that XM Satellite radio has to offer. I currently own two of their satellite radios and would never even consider being without them. As a subscriber to the services they offer I do not feel that the government or anyone else has the right to limit what I can listen to. This is another attempt to censor free speech and it has to stop. I have the freedom and right to choose what I listen to and XM Radio has given me that choice. The NAB needs to stay out of my right to choose and listen to XM radio and instead of trying to put a stop to the great programming offered by XM they need to take a look at how they can improve themselves. XM radio should not be limited to the programming they can provide just because the NAB is threatened by those of us who understand why XM is so important to each and everyone of us.
